

## Over 100 Years history of Kinki Amibari Co. Ltd.

Since our establishment in 1916, we have continued to produce knitting needles following our promise to always deliver the best quality.

We only use carefully selected high-quality bamboo grown in Japan.

Based on our years of experiences and expertise we are committed to pleasing our customers with our products.

## Japan Quality - made by skilled Craftsmen

Made by skilled craftsmen in Japan:

Bamboo is different in nature, depending on where it is grown, the season, and the variety. For this reason, only skilled craftsmen who have the flexibility to work with these properties are able to manufacture stable quality bamboo knitting needles.

Printed in Japan

Seeknit

*founded in 1916*

# Sustainable

- \_ Bamboo is a renewable resource as it grows extremely quickly.
- \_ Using bamboo means there is very little environmental impact and logging bamboo for knitting needles is fulfilling a natural evolution.
- \_ It is relevant to ECO and KA has self-declared to follow SDGs #7, #12 and #15.

# Comfortable

- \_ Easily fit to hand, light and flexible.
- \_ We are confident that you will see the top quality of our workmanship in our needles that are polished to perfection.

# Useful

- \_ Easier to pick up stitches with finely ground needle points and carefully polished surfaces.
- \_ The size is laser-printed so it won't rub off.
- \_ Swivel cords help prevent the cord from twisting.
- \_ The asymmetric circular needle is a KA original product developed to knit small diameter tubes such as socks comfortably smooth. One of the needles is just one centimeter shorter than the other, and that makes a big difference in smoothness and comfort.

# Grace

- \_ Our graceful and pleasing knitting needles made of Japanese natural bamboo are produced by our highly skilled craftsmen. Their years of experience working with this medium allow them to manufacture top quality bamboo knitting needles.
- \_ Enjoy a relaxing time with the easiness of knitting with our needles.

## Point 01

The finely ground needle tips make it easier to pick up stitches.

## Point 02

The carefully polished surface is soft to the touch and the yarn slides off easily.

## Point 03

The size is laser-printed so it won't rub off.

## Point 04

KA knitting needles use a rotating swivel cord to prevent the cord from twisting.

## Point 05

The asymmetric circular needle is a KA original product developed to knit small diameter tubes such as socks comfortably. One of the needles is just one centimeter shorter than the other, and that makes a big difference in smoothness and comfort.
